(1) Dimensions are approximate.

(2) Recommended load weights are evaluated on a case-by-case basis based on load weight/distribution, load configuration, shipment type, unitization, and pallet use.

Green Ox Pallet Technology allows for cost savings and efficiencies in the handling, storage, and transportation of materials and products.

CONCEPT	GREEN OX BENEFIT	GREEN OX ENABLING TECHNICAL FEATURE
1. LOAD INTEGRITY	- Safely carries and protects the product load	- Safe for transporting food and other products susceptible to contamination - Pallet flexes during transport, absorbing shock and vibrations - Patented design tested by an independent ISTA-certified laboratory
2. SHIPPING	- Reduces fuel consumption	- Pallet weighs only ~10.5 lbs.; considerably less than a wood pallet
3. STORAGE	- Minimal space requirements	- Pallets are manufactured into flat blanks
4. EFFICIENCY	- Delivered on a Just-In-Time basis	- Manufacturing and distribution models allow for delivery when needed
5. DISPOSAL	- Easy disposal after use	- Pallet material provides post-use recycling revenue
6. SAFETY	- Reduces worker injuries and improves product safety; OSHA compliant	- Pallet design has no nails, staples, or splinters and is lightweight
7. TRANSPORT EFFICIENCY	- ISPM-15 exempt	- Pallet requires no treatment for import/export
8. SUSTAINABILITY	- Reduction of environmental footprint; tangibly green	- Pallets are 100% recyclable and estimated to reduce CO2 emissions by ~85% compared to wood pallets

Say GOODBYE to inconvenient and costly wood pallets and HELLO to cost savings & product safety with Green Ox® Pallets.
